

Hydrafacial Expands Treatment Personalization and Elevates Results with Two New Treatment Enhancers

Sep 8, 2026

- HydraGlow Pre-Extraction Peel helps prep skin for easier, more effective extractions and improved exfoliation.
- Hydralock HA Biocellulose Mask hydrates, soothes and replenishes the skin barrier for a smooth, supple appearance.
- Both Treatment Enhancers integrate into existing Hydrafacial treatment protocols, giving providers new ways to personalize the experience and create premium upgrades.

LONG BEACH, Calif., Sept. 08, 2026 (GLOBE NEWSWIRE) -- SkinHealth Systems (Nasdaq: SKIN), home to Hydrafacial, today announced the launch of two new Hydrafacial Treatment Enhancers: HydraGlow Pre-Extraction Peel and Hydralock HA Biocellulose Mask.

Designed to integrate seamlessly into existing Hydrafacial treatment protocols, the new Treatment Enhancers give providers additional tools to customize treatments based on individual skin needs and deliver a more elevated, personalized experience.

Two Treatment Enhancers Designed to Optimize the Hydrafacial Treatment Experience

HydraGlow Pre-Extraction Peel is an exfoliating peel enhancer applied before the Hydrafacial treatment peel and extraction step. It helps loosen dirt, oil, and pore-clogging impurities for easier, more effective extractions, while a blend of exfoliating acids, glycerin, and hyaluronic acid complex helps refine texture and maintain skin hydration. **Hydralock HA Biocellulose Mask** is designed to hydrate, soothe and replenish the skin barrier, helping restore moisture and reveal a visibly plumper, smoother appearance. Its immediate cooling sensation makes it ideal for use with LED light therapy.

"Personalization has always been central to the Hydrafacial treatment, and we see an opportunity to take that even further by giving providers more ways to tailor each treatment to their individual client," said Whitney Cypes, Chief Brand and Clinical Innovation Officer of SkinHealth Systems. "With Treatment Enhancers, we're expanding what's possible within the Hydrafacial experience while continuing to innovate around the results consumers want and the tools providers need to deliver them."

HydraGlow Pre-Extraction Peel Demonstrates Exfoliation and Extraction Benefits

In a split-face study following one Hydrafacial treatment across all Fitzpatrick skin types, HydraGlow Pre-Extraction Peel demonstrated measurable treatment benefits:

- Helped improve skin exfoliation by nearly two times.¹
- Enhanced extractions, with providers reporting easier, more effective extractions without leaving skin looking dry or stripped.¹
- Supported overall skin health, with 100% of participants reporting healthier, more radiant-looking skin and clearer-looking pores; all said they would request it again.¹

Hydralock HA Biocellulose Mask Builds on Consumer Demand for Treatment Personalization

The new mask also builds on consumer demand for personalized Hydrafacial treatment experiences. According to a 2025 Ipsos study, 54% of Hydrafacial consumers have had their treatment personalized with a facial mask at an aesthetic practice², highlighting an established role for customization within the Hydrafacial experience.

"I love the Hydralock HA Biocellulose Mask. It feels amazing upon application, with an immediate cooling and soothing sensation, and the glow is unreal," said Jamie Villarreal, CLHRP, Viva Day + Med Spa. "The HydraGlow Pre-Extraction Peel is a true game changer. I see a noticeable difference in my gunkie jars, and extractions are more efficient with the handpiece and much easier when performed manually. It is the best extraction prep solution I have ever used and a valuable addition to an already amazing treatment."

Treatment Enhancers Designed To Work Together or Independently

Providers can incorporate either Treatment Enhancer individually or combine both to create a premium, multi-benefit Hydrafacial treatment experience that pairs enhanced exfoliation and pore refinement with cooling, replenishing hydration and a radiant-looking glow.

HydraGlow Pre-Extraction Peel and Hydralock HA Biocellulose Mask are available now to Hydrafacial providers in the U.S. For more information or to find a Hydrafacial provider near you, visit [hydrafacial.com](https://www.hydrafacial.com).

Forward-Looking Statements

Certain statements made in this release are "forward-looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995 and within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding SkinHealth Systems Inc.'s strategy, plans, objectives, initiatives and financial outlook. When used in this press release, the words "estimates," "projected," "expects," "anticipates," "forecasts," "plans," "intends," "believes," "seeks," "may," "will," "should," "future," "propose" and variations of these words or similar expressions (or the negative versions of such words or expressions) are intended to identify forward-looking statements.

These forward-looking statements are not guarantees of future performance, conditions or results, and involve a number of known and unknown risks, uncertainties, assumptions and other important factors, many of which are outside SkinHealth Systems Inc.'s control, that could cause actual results or outcomes to differ materially from those discussed in the forward-looking statements. As such, readers are cautioned not to place undue reliance on any forward-looking statements.

Important factors that may affect actual results or outcomes include, among others: SkinHealth Systems Inc.'s ability to manage growth; SkinHealth Systems Inc.'s ability to execute its business plan; providers' and consumers' perception of the Treatment Enhancers; the success of the Treatment Enhancers' launch and how the products are received amongst providers and consumers; potential litigation involving SkinHealth Systems Inc.; changes in applicable laws or regulations; the possibility that SkinHealth Systems Inc. may be adversely affected by other economic, business, and/or competitive factors; and other risks and uncertainties set forth in the sections entitled "Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements" in the Company's Annual Report on Form 10-K for the year ended December 31, 2026 filed with the U.S. Securities and Exchange Commission (the "SEC") and in the Company's subsequent filings with the SEC such as on a Quarterly Report on Form 10-Q. Those risks continue to be relevant to the Company's performance and financial condition. Moreover, the Company operates in a very competitive and rapidly changing environment. New risk factors emerge from time-to-time and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. SkinHealth Systems Inc. expressly disclaims any responsibility to update forward-looking statements, whether as a result of new information, future events or otherwise.
